## Review of the Quarter

#### Revenue – continuing operations

Revenue for continuing operations in the three months ended March 31, 2020 decreased by \$17 million to \$1,622 million, compared with \$1,639 million in the three months ended March 31, 2019. Revenue in Metal Beverage Packaging Europe decreased by \$7 million, or 2%, to \$385 million in the three months ended March 31, 2020, compared with \$392 million in the three months ended March 31, 2019. Excluding unfavorable foreign currency translation effects of \$10 million, revenue increased by \$3 million principally reflecting volume/mix growth of 1%, partly offset by the pass through of lower input costs.

Revenue in Metal Beverage Packaging Americas increased by \$5 million, or 1%, to \$444 million in the three months ended March 31, 2020, compared with \$439 million in the three months ended March 31, 2019. Revenue growth principally reflected favorable volume/mix effects of 4%, partly offset by the pass through of lower input costs.

Revenue in Glass Packaging Europe decreased by \$8 million, or 2%, to \$384 million in the three months ended March 31, 2020, compared with \$392 million in the three months ended March 31, 2019. Excluding unfavorable foreign currency translation effects of \$10 million, revenue increased by \$2 million primarily driven by higher selling prices, partly offset by unfavorable volume/mix effects of 2%.

Revenue in Glass Packaging North America decreased by \$7 million, or 2%, to \$409 million in the three months ended March 31, 2020, compared with \$416 million in the three months ended March 31, 2019. The decrease in Adjusted EBITDA principally reflected a prior year pension credit of approximately \$15 million in 2019 and unfavorable foreign currency translation effects of \$2 million, partly offset by lower input costs and favorable volume/mix effects.

Adjusted EBITDA in Metal Beverage Packaging Americas increased by \$10 million, or 20%, to \$61 million in the three months ended March 31, 2020, compared with \$51 million in the three month period ended March 31, 2019. ### Footnotes to the Selected Financial Information

- (1) Adjusted EBITDA consists of profit/(loss) for the year before income tax charge/(credit), net finance expense, depreciation and amortization, exceptional operating items and share of profit or loss in equity accounted joint venture. We use Adjusted EBITDA to evaluate and assess our segment performance. Adjusted EBITDA is presented because we believe that it is frequently used by securities analysts, investors and other interested parties in evaluating companies in the packaging industry. However, other companies may calculate Adjusted EBITDA in a manner different from ours. Adjusted EBITDA is not a measure of financial performance or any other measures of performance derived in accordance with IFRS.

- (3) Excludes exceptional finance income and expense.

The unaudited consolidated interim financial statements do not include all of the information required for full annual financial statements and should be read in conjunction with the Annual Report for the year ended December 31, 2019 which was prepared in accordance with International Financial Reporting Standards ("IFRS").

The unaudited consolidated interim financial statements are presented in U.S. dollar rounded to the nearest million.

The accounting policies, presentation and methods of computation followed in the unaudited consolidated interim financial statements are consistent with those applied in the Group's latest Annual Report.

#### Recent changes in accounting pronouncements

The impact of new standards, amendments to existing standards and interpretations issued and effective for annual periods beginning on or after January 1, 2020 have been assessed by the Directors and as a result, no new standards or amendments to existing standards effective January 1, 2020 are expected to have a material impact for the Group. The Directors' assessment of the impact of new standards, which are not yet effective and which have not been early adopted by the Group, on the consolidated interim financial statements is on-going.

#### 4. Segment analysis

Following the Ardagh Group's announcement in July 2019 to combine the Food and Specialty Metal Packaging business ("Food & Specialty") with the business of the Exal Corporation ("Exal") to form Trivium, the composition of the Group's operating and reporting segments changed. Food & Specialty was classified as a discontinued operation. This reflected the basis on which the Group's performance is reviewed by management and presented to the Board, which has been identified as the Chief Operating Decision Maker ("CODM") for the Group. The following are the Group's four operating and reportable segments, with prior year information being updated accordingly:

- Metal Beverage Packaging Europe
- Metal Beverage Packaging Americas
- Glass Packaging Europe
- Glass Packaging North America.

Performance of the business is assessed based on Adjusted EBITDA. Adjusted EBITDA is the profit or loss for the period before income tax charge or credit, net finance expense, depreciation and amortisation, exceptional operating items and share of profit or loss in equity accounted joint venture. Other items are not allocated to segments, as these are reviewed by the CODM on a group-wide basis. Segmental revenues are derived from sales to external customers. Inter-segment revenue and revenue with joint ventures is not material.

Within each reportable segment our respective packaging containers have similar production processes and classes of customers. Further, they have similar economic characteristics, as evidenced by similar profit margins, similar degrees of risk and similar opportunities for growth. Based on the foregoing, we do not consider that they constitute separate product lines and therefore additional disclosures relating to product lines is not necessary.

#### Impairment test for goodwill

Goodwill is not subject to amortization and is tested annually for impairment following the approval of the annual budget (normally at the end of the financial year), or more frequently if events or changes in circumstances indicate a potential impairment.

Management has considered whether any impairment indicators existed at the reporting date, or subsequently to the date that the unaudited consolidated interim finance statements were approved for issue by the board of directors, including assessing whether any cash-generating units ("CGU") had experienced or is expected to experience prolonged cessation of operations or had suffered or is expected to suffer either an immediate significant decline in demand or prices and profitability as a result of COVID-19. In addition, management assessed the likely impact of potential reduced economic activity in the markets in which the Group operates.

The results of this assessment were such that management identified reduced anticipated future demand in respect of the Glass Packaging Europe group of CGUs. Therefore management considered the carrying amount of the Glass Packaging Europe group of CGUs and concluded that it is fully recoverable as at March 31, 2020 given the significant headroom that existed at December 31, 2019 and which continued to exist at March 31, 2020. Based on this assessment, a reasonably possible change to the operating cashflows for each group of CGUs would not reduce their recoverable amounts below their carrying values.

#### 8. Investment in material joint venture

Investment in material joint venture is comprised of the Group's approximate 42% investment in Trivium Packaging B.V. incorporated in the Netherlands, with corporate offices in Amsterdam. Certain of the Group's borrowing agreements contain certain covenants that restrict the Group's flexibility in certain areas such as incurrence of additional indebtedness (primarily maximum secured borrowings to Adjusted EBITDA and a minimum Adjusted EBITDA to interest expense), payment of dividends and incurrence of liens. The Global Asset Based Loan Facility is subject to a springing fixed charge coverage ratio covenant. The facility also includes cash dominion, representations, warranties, events of default and other covenants that are generally of a nature customary for such facilities.

#### 15. Contingencies

#### Environmental issues

The Ardagh Group is regulated under various national and local environmental, occupational health and safety and other governmental laws and regulations relating to:

- the operation of installations for manufacturing of metal packaging and surface treatment using solvents;
- the operation of installations for manufacturing of container glass;
- the generation, storage, handling, use and transportation of hazardous materials;
- the emission of substances and physical agents into the environment;
- the discharge of waste water and disposal of waste;
- the remediation of contamination;
- the design, characteristics, collection and recycling of its packaging products; and
- the manufacturing, sale and servicing of machinery and equipment for the container glass and metal packaging industry.

The Ardagh Group believes, based on current information that it is in substantial compliance with applicable environmental laws and regulations and permit requirements. It does not believe it will be required, under existing or anticipated future environmental laws and regulations, to expend amounts, over and above the amounts accrued, which will have a material effect on its business, financial condition or results of operations or cash flows. In addition, no material proceedings against the Ardagh Group arising under environmental laws are pending.

#### Legal matters

In 2015, the German competition authority (the Federal Cartel Office) initiated an investigation of the practices in Germany of metal packaging manufacturers, including the Food & Specialty Metal Packaging business of the Ardagh Group which was sold to Trivium. In 2018, the European Commission took over this investigation and the German investigation is, as a result, at an end. Ardagh Group S.A has agreed to provide an indemnity in respect of certain losses that Trivium might incur in connection with this investigation. The European Commission's investigation is ongoing, and there is, at this stage no certainty as to the extent of any charge which may arise. Accordingly, no indemnification liability has been recognized.

With the exception of the above legal matter, the Group is involved in certain other legal proceedings arising in the normal course of its business. The Group believes that none of these proceedings, either individually or in aggregate, are expected to have a material adverse effect on its business, financial condition, results of operations or cash flows.

#### 16. Seasonality of operations

The Ardagh Group's revenue and cash flows are both subject to seasonal fluctuations with the Group generally building inventories in anticipation of these seasonal demands resulting in working capital requirements typically being the greatest at the end of the first quarter of the year.

The demand for our metal beverage products is strongest during spells of warm weather and therefore demand typically peaks during the summer months, as well as in the period leading up to holidays in December. Demand for beverage products within our Glass Packaging business is similarly strongest during the summer and during periods of warm weather, as well as the period leading up to holidays in December.

The Group manages the seasonality of working capital principally by supplementing operating cash flows with drawings under our Global Asset Based Loan facility.

#### 17. Other information

#### COVID-19

The outbreak of COVID-19 and measures to prevent its spread, including restrictions on travel, imposition of quarantines and prolonged closures of workplaces and other businesses, including hospitality, leisure and entertainment outlets, and the related cancellation of events, has impacted our business in a number of ways. This has included an adverse effect from reduced global economic activity and resulting demand for our customers' products and, therefore, the products we manufacture. It may also adversely affect our ability to operate our business, including potential disruptions to our supply chain and workforce. The COVID-19 impact on capital markets could also impact our cost of borrowing.

The ultimate significance of these disruptions, including the extent of their adverse impact on our financial and operational results, will be determined by the length of time that such disruptions continue. This will, in turn, depend on the duration of the COVID-19 pandemic, the impact of governmental and other regulations in response to the pandemic and the resulting effect on macroeconomic activity and consumer behaviour.

Our response to the outbreak of COVID-19 across our business operations can be summarized as follows:

#### **Business Continuity**

The Ardagh Group is a leading supplier of consumer packaging solutions, comprising metal beverage cans and glass containers, primarily for the beverage and food end markets in Europe, North America and Brazil. In the markets it operates in, the Ardagh Group is an essential provider of packaging to the beverage and food supply chain. The Ardagh Group's people are deemed "Essential Critical Infrastructure Workers" under the guidance of the U.S. Department of Homeland Security, as are its customers. Where other governments have issued guidance, the Ardagh Group have received equivalent designations in all other countries where it operates. As a result, all the Ardagh Group's global operations are permitted to continue to operate and did so continuously through the quarter. The Ardagh Group will continue to manage its capacity in response to the evolution of demand.

#### Employee health and safety

The health and safety of the Ardagh Group's 16,000 employees and their families and communities, as well as its contractors, suppliers and customers has been its highest priority since the outbreak of the crisis. The Ardagh Group established a Group-wide task force to ensure an effective and consistent response across its business. Regular updates have been issued and a dedicated intranet site established to facilitate effective communication of recommendations, policies and procedures. Communication with all stakeholders has been a core element in its response.

Measures continue to evolve in line with best practice and with recommendations by national health authorities and the World Health Organization. Initiatives introduced to date have included: enhanced hygiene procedures in all locations, including increased cleaning in production facilities; increased investment in personal protective equipment; adapting work practices and routines to ensure social distancing; establishing procedures for self-isolation; travel advisories including restrictions on all non-essential travel, prior to broader restrictions on any travel; restrictions on visitors to production facilities; actively encouraging and ultimately requiring remote working for non-operational personnel, and enhancing our IT capability to facilitate increased remote working.

#### Available liquidity

The Group's long term liquidity needs primarily relate to the service of our debt obligations. We expect to satisfy our future long term liquidity needs through a combination of cash flow generated from the Ardagh Group operations and, where appropriate, to refinance our debt obligations in advance of their respective maturity dates as we have successfully done in the past.

The Ardagh Group generates substantial cash flow from its operations on an annual basis. As a precautionary measure in response to the increased macroeconomic uncertainty related to COVID-19, the Ardagh Group have increased its cash on hand and total available liquidity, by drawing on its Global Asset Based Loan facility and by entering a new \$300 million Credit Facility during March 2020. The Ardagh Group had \$962 million in cash and cash equivalents and restricted cash as at March 31, 2020, as well as available but undrawn liquidity of \$128 million under its credit facilities. The ARD Finance Group had \$1,008 million in cash and cash equivalents and restricted cash as at March 31, 2020.

Ardagh Group's cash and cash equivalents was increased further subsequent to the reporting period as a result of the issuance of a combined \$700 million of Senior Secured Notes due 2025 comprised of 1) \$500 million 5.250% Senior Secured Notes due 2025, of which \$300 million has been used to repay in full the \$300 million term loan credit facility plus accrued interest, and 2) \$200 million add-on 5.250% Senior Secured Notes due 2025.

#### Going concern

At the date that the unaudited consolidated interim financial statements were approved for issue by the board of directors, the board has formed the judgement that there is a reasonable expectation that the Group will have adequate resources to continue in operational existence for the foreseeable future. Accordingly, these unaudited consolidated interim financial statements have been prepared on a going concern basis.

In assessing whether the going concern assumption is appropriate, the board has taken into account all available information about a period, extending to at least, May 31, 2021. In particular, the board has considered the outbreak of the novel coronavirus and measures to prevent its spread being imposed by Governments in the countries in which the Group, its suppliers and its customers operate as previously referred to.

In arriving at its conclusion, the board has taken account of the Group's current and anticipated trading performance, together with current and anticipated levels of cash and net debt and the availability of committed borrowing facilities. The board has developed a number of adverse scenarios to reflect potential COVID-19 impacts on the Group's liquidity. These informed the board's judgement that it is appropriate to prepare the unaudited consolidated interim financial statements using the going concern basis.

#### Customer credit risk

Ardagh Group's policy is to extend credit to customers of good credit standing. Credit risk is managed on an on-going basis, by experienced people within the Ardagh Group. The Ardagh Group's policy for the management of credit risk in relation to trade receivables involves periodically assessing the financial reliability of customers, taking into account their financial position, past experience and other factors and regularly monitoring the utilization of credit limits. The Ardagh Group monitors actual historical credit losses and adjusts for forward-looking information to measure the level of expected losses.

Management does not expect any significant counterparty to fail to meet its obligations and there is no recent history of default with customers. Significant balances are assessed for evidence of increased credit risk. Examples of factors considered are high probability of bankruptcy, breaches of contract or major concession being sought by the customer. Instances of significant single customer related bad debts are rare and there is no significant concentration of risk associated with particular customers. Adverse changes in the payment status of customers of the Ardagh Group, or national or local economic conditions that correlate with defaults on receivables owing to the Ardagh Group, may also provide a basis for an increase in the level of provision above historic loss experience.
